

Do you require a

PERIODIC INSPECTION REPORT

for your home or business?

A Periodic Inspection Report (PIR)—now often called an Electrical Installation Condition Report (EICR) or just an Electrical Test Certificate—is a comprehensive assessment of an existing electrical installation's safety and condition. Conducted by **qualified electrical contractors**, it identifies hazards, defects, and non-compliance with regulations, typically **every 5 years** for **commercial/rented properties**.

**AT FUSE ELECTRICAL
WE SPECIALISE IN PIR'S.**

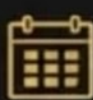

Identify
Hazards &
Defects

Ensure
Compliance
with
Regulations

Suitable for
Homes,
Businesses &
Rentals

Recommended
Every
5 Years
